

RanFy Monthly Update, October 2026

Last updated: 5 October 2026

From Mushfiqur Rahman Faiyaz, Founder of RanFy Inc.

Hello and thank you

Hi everyone, and welcome to this month's update. First things first: thank you. We now have roughly 19,000 users in total, counting the people who signed up in early October, so please treat that figure as an approximate number rather than an exact count. Every one of you helps us keep building, and we do not take that for granted. Speaking of building, we released PidiFie version 1.2 on 2 October 2026. It comes with a fix for text selection on long documents. We want to be upfront with you, though: a few edge cases remain, so the fix is not perfect yet. If you are one of the people who has been waiting for better text selection, we hope this release already makes your day a little easier.

Now for some news that is less fun. The ExpendFy Business beta is delayed. It was planned for 15 December 2026, and it now moves to 12 January 2027. We know a delay is never what anyone wants to read, so we wanted to make it up to the people who are waiting. Because of the delay, early sign-ups now get 90 days free instead of 60, and the number of beta spots rises from 200 to 300. If you had been thinking about joining the beta, there is now more room for you and a longer free period, and we would love to have you with us.

Discounts and promotions

Students, this part is for you. From 1 November 2026 the student discount rises from 20 percent to 30 percent. It now covers Fresh Texfy Pro, Font Fruite Pro and ExpendFy Persona Premium. We are happy to be able to do this, and we hope it helps everyone who is balancing studies and creative projects. While we are on the subject of good deals, we also have a Font Fruite promotion running this month. Free exports go from 3 to 5 per month, but this applies until 31 October 2026 only, so make the most of it while it lasts. The student discount change and the Font Fruite promotion are two separate things, so please do not mix them up when you plan your month.

Support hours, dark mode and what is next

A quick note on support. Our support team will be closed on Wednesday 16 December 2026 for Victory Day. Normal hours apply otherwise, which means Sunday to Thursday. If you think you will need help around that date, it is worth planning ahead a little. Many of you have also asked whether the calendar app will get a dark mode. Yes, it is planned for early 2027. We read your messages and your requests really do matter to us, so please keep them coming.

Finally, a small teaser. Our new app is coming along nicely and sign-ups for the waiting list will open soon. We are excited to share more with you when the time comes. Until then, thank you again for being part of the RanFy community, and we will talk to you in the next update.

Warm regards,
Mushfiqur Rahman Faiyaz
